

# 'Stella' Plant Care Guide

Peperomia scandens green

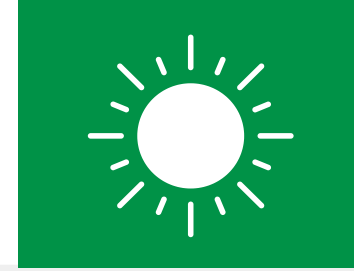

## **WATER:**

1/2 cup of water once a week or  
1 cup of water if soil is completely dry

## **SOIL:**

1/2 peat moss  
1/2 potting soil  
6 - 8 inch pot ideal

## **SUNLIGHT:**

Indoors; indirect medium to low light

## **PROPAGATION:**

Cut stem at an angle and plant directly in soil or in water to allow for root growth
